

Aug. 3, 1928.

Mr. Wallace R. Wayman,
Price, Utah.

Dear Sir:

RE: PRICE DIST.

I am in receipt of a letter from Mrs. DeMarco about the Eleganti matter and would not trouble you except that she seems to intimate in this letter that it might be possible for the Elegantis to draw the spring water out separate then keep it apart from the flow in which she has a right.

I wish you would please turn this matter over in your mind and let me know if, by installing a reasonable length of pipe directly connected with Crystal Spring, the Eleganti's water could be prevented from commingling with the DeMarco supply.

Yours very truly,

State Engineer.
